MDR 1: (+/-) carrier (Laboklin)

GCS: (+/+) non carrier!! (Laboklin)

PRA-KAT: clear (6 weeks)

mental test: best grade 1,0

Cherokee is a son of Annika and the white US-import stud "Stonewood's White Sentinel". He is a big and strong male with a beautiful bright blaze. His character is that one of a typical American Collie: Very self-confident and calm. He is absolutely unshakable and he really loves children, they can do everything with him. And he has a great weakness for Niagara! He drops everything for her...

We used Cherokee in 2007 for our breeding program and he sired two very promising litters with Niagara and Hazel.

Cherokee has become International Champion. He was Best Male at the American Collie National Show 2006 and at the American Collie European Show 2006.
